

Survey Project Manager (PLS)

Company Description:

Red Swing Consulting Services views its Clients as Partners; focusing first and foremost on building and maintaining strong relationships and trust. This mutual trust is the foundation of a solid business partnership. Red Swing offers Land Development Consulting Services to take a project from concept Through construction. Its service markets include Surveying, Civil Engineering, Infrastructure, Utility, and Telecommunications Projects. Red Swing effectively maximizes the return on investment through a collaborative design approach, utilizing a low impact design philosophy that reduces project capital costs and produces the competitive edge that we and our partners demand.

Job Description:

Professional Land Surveyor (State of PA minimum) to help lead our growing Surveying Department by providing technical expertise and assistance in oversight of the Survey practice, assist in monitoring field and office procedures and offer strategic visioning/leadership by identifying opportunities. Additionally, work with the other practices within the firm to provide an integrated approach to project collaboration while addressing our Client's needs. This position will be eligible for the future Director of Surveying here at Red Swing.

Basic Duties:

- Prepare/review daily data, and assist in monitoring field survey crews
- Help direct field and office staff to execute field surveys
- Perform quality control of survey plans, record plats, descriptions, and review of title commitments
- Process field work data
- Prepare and review CAD work, plats, and final surveys
- Survey boundary analysis and computations of ALTA and topography surveys utilizing AutoCAD Civil 3D
- Assist in training and management of survey department field crews, CAD technicians, and support staff
- Schedule and coordinate between other departments and companies
- Occasionally perform field survey work
- Meet with Clients to discuss their needs and review projects

Qualifications:

- 7 to 20 years of experience
- Pennsylvania Professional Land Surveyor Registration (PLS)
- Strong competence in using AutoCAD Civil 3D
- Strong multi-tasking and follow-up skills
- Ability to provide guidance and mentoring to staff in the growing survey practice
